Reference edition based on the public catalogue on 23 October 2026. Pack specifications, price, available quantity and delivery timing must be confirmed for each enquiry.

01 / THE TEA HOUSE

Vietnamese tea. A foundation for lasting partnerships.

From highland raw materials to processing in Hà Giang, Hoàng Long connects tea-making experience with the requirements of importers, distributors and market-development partners. Each supply programme starts with a technical brief, reference samples and a practical implementation plan.

EXPERIENCE

Making tea since 1995

The foundation of the Hoàng Long family's tea-making experience.

INDICATIVE PRODUCTION CAPACITY

50-100 tonnes/month

Declared by Hoàng Long; product mix, available volume and timing are coordinated against the production plan.

PROCESSING & EXW COLLECTION

Tân Lập · Hà Giang

Hoàng Long Tea Factory. The Hanoi commercial office and warehouse are a separate location.

COOPERATION FOCUS

Distribution · Export

From sample and market evaluation to shipments and subsequent supply planning.

Processing-line image currently published by Hoàng Long.

Value begins at the tea's origin.

Northwest Vietnam and Hà Giang underpin Hoàng Long's raw-material base. Highland tea selection and processing methods, including steam processing with Japanese technology, provide a starting point for developing products around their intended application and market segment.

OFFICE / WAREHOUSE

36B QL2A, Sóc Sơn, Hà Nội, Việt Nam

This is the office and warehouse address, not the factory address.

02 / COOPERATION AGENDA

Trade connections and market development.

Hoàng Long welcomes discussions with importers, trade-promotion bodies, associations and business partners about presenting Vietnamese tea, connecting buyers and assessing supply capability. Objectives, scope and responsibilities are agreed for each programme.

01 **B2B supply programmes**

Develop a range, reference samples and delivery plans around a distribution network or importing market.

02 **Trade promotion & buyer connections**

Discuss product presentations, focused business meetings and introductions to suitable buyers.

03 **Site assessment & product development**

Arrange origin and factory assessments and product trials against agreed objectives and scope.

Brief for the first working meeting

01 Convening organisation, responsible contact and meeting objectives

02 Market, buyer audience or distribution channel

03 Tea range, application, technical requirements and planned volume

04 Schedule, meeting location and documents for review

05 Next action, responsible person and how results will be assessed

03 / EVIDENCE & DUE DILIGENCE

Documentation for partner due diligence.

Partners can agree a document-review scope around the product, market and cooperation objectives. Transaction records and customer information are shared privately within the permitted scope.

01 **Entity & responsible contacts**

Company identity, tax number, responsible contacts and transaction authority are reviewed before signing.

02 **Production & origins**

Actual photographs, processing steps, the basis for volume planning and product-origin information relevant to the assessment.

03 **Products & quality**

Samples, specifications and any available test results, with their date, lot and applicable scope.

04 **Delivery experience**

Completed-shipment records, transport documents or delivery acknowledgements where disclosure is permitted; customer information is not published automatically.

EXPORT / LARGE-BULK PACKING

PP/PE sacks · 20 / 30 / 35 kg. Adjustable to the tea's form or the buyer's intended use; confirm the specification for each order.

04 / RANGE STRUCTURE

A range for different needs

Start with how you plan to use the tea. Choose a relevant group, test it in your working conditions and confirm the pack specification with Hoàng Long.

Green tea

Compare colour, strength and finish using your intended brewing method. For iced tea, share your tea, water and ice quantities.

Black tea

Compare samples for strength and aroma in your actual recipe. If using milk or fruit, test with your own ingredients.

White tea

Start with the sample brewing guidance, then adjust for your application. Discuss the required grade and leaf specification before ordering.

Scented tea

Select lotus, jasmine or orchid, then evaluate the balance of scent and tea in your brewing method.

Pu-erh tea

Choose cake or piece format. Confirm the weight per unit and number of cakes/pieces; do not convert to kilograms without an agreed unit weight.

Other teas

Discuss your application, grade and packing to select a suitable sample.

EXPORT / LARGE-BULK PACKING

PP/PE sacks · 20 / 30 / 35 kg. Adjustable to the tea's form or the buyer's intended use; confirm the specification for each order.

06 / COOPERATION CONTACT

From first discussion to a supply programme

A responsible contact coordinates the initial brief, sample evaluation, commercial proposal and delivery. Commitments are recorded for the specific programme or contract.

1

Define the market brief

Destination market, application, distribution channel, planned volume and implementation schedule.

2

Evaluate samples & capability

Review reference samples, testing requirements, processing capacity and a factory assessment where appropriate.

3

Agree on commercial requirements

Confirm packing, quantity, price, delivery terms, payment and each party's documentation responsibilities.

4

Implement & reconcile delivery

Track goods readiness, packing, transport and delivery evidence, then record feedback for the next shipment.
